Summary

Frontend Developer with 2 years of experience building scalable, performant web applications using React, Next.js, and Tailwind CSS. Skilled in translating complex product ideas into clean, responsive UIs with smooth animations and thoughtful design. Strong collaborator with experience working closely with backend engineers and designers. Passionate about design systems, modern tooling, and building user-focused products for global audiences.

Experience

Samespace   **Sep 2023 – Feb 2025**

SDE I - Frontend

- Led frontend development for Circle, an AI-powered hiring platform handling over 20,000+ job applications across internal recruitment pipelines.

- Engineered responsive, accessible UI components using Tailwind CSS, Radix UI, and Shadcn — improving usability scores by 30%.

- Integrated Framer Motion to build smooth UI transitions and micro-interactions, boosting user engagement across dashboards.

- Collaborated cross-functionally with designers and backend teams to launch features like job creation flows, dynamic assessments, and interview analytics with pixel-perfect implementation.

- Improved data-fetching efficiency by 40% using React Query's caching and deduplication features — reducing redundant GraphQL API calls and speeding up load times.

Featured Project

Dafolio – AI-Powered Portfolio Builder | dafolio.com   **Mar 2025 – Apr 2025**

- Designed, developed, and deployed a full-stack portfolio builder using Next.js, TypeScript, Supabase, and OpenAI API — helping developers launch professional portfolios in minutes.

- Implemented AI-powered content generation using OpenAI's GPT, reducing user input effort by over 60%.

- Built real-time draft saving using Zustand with persistence, improving UX and reliability across sessions.

- Enabled theme customization accent color, and dark/light mode options — increasing user retention.

- Delivered a polished, minimal UI with Framer Motion animations and Shadcn design system for a highly interactive and consistent user experience.

- Launched personalized portfolio pages (e.g., dafolio.com/faisal) with shareable URLs to support social and professional visibility.

Technical Skills

Languages: TypeScript, JavaScript, HTML5, CSS3
Frontend: React, Next JS, Tailwind CSS, Framer Motion, Radix UI, Shadcn, Tiptap, React Query, Zustand, Redux, Recoil, Context API
Backend/Platforms: Supabase, Firebase, GraphQL, OpenAI API
Dev Tools: Git, GitHub, VS Code, Cursor Pro, Vercel, Netlify

Education

Bachelor of Science in Information Technology
B.K. Birla College of Arts, Science and Commerce, Kalyan   2020 – 2023
